

Peninsula Woodworkers Club

NEWSLETTER NOVEMBER 2014
Editor – Gary Haubold

WE WILL BE HAVING A MEETING at 7:00 pm on Thursday, November 6, 2014. Our meeting place will be at our regular meeting place at Hillcrest Baptist Church on Black Diamond Road, just south of the bridge which crosses Highway 101. Check the complete directions below at the end of this newsletter.

*****MEETING AGENDA*****

*WELCOME AND INTRODUCTIONS *

*CLUB BUSINESS *

*SHOW AND TELL *

*ROUND TABLE – YOUR FAVORITE FINISH *

Despite a turnout of eight members, we had really good meeting.

The club's library is back in business now that the repainting is completed.

Because we had such a light turnout and no speaker or program we changed the round table format somewhat and it really worked out well. As the introductions were done, that person expressed a concern about woodworking that is problematic for him in his shop. Then we brain stormed it. It really turned out well for the entire hour

Dick Barker has been testing batteries, 18volt lithium, disassembling and replacing bad cells. It seems each cell is two volts and soldered together. Rigid has life time service. See Lowell at L & L Tools located at the McDonald's Y.

Gary Johnson is keeping up the house. He tells us Woodcraft has high intensity dyes.

Jonathan White is working on his new work bench. His draw board joints worked out well. This thing is going to be quite a horse. We pretty much decided he needs extra bodies to help with final assembly. This brings to mind a couple of things: 1. Do we want to make a directory for members phone numbers and e-mail addresses, e.g. when a work party is needed for a project? 2. Are portions of the web site going to be passworded for member access?

Mike Kurhajetz has been working with a yard full of lumber and logs and ended up overloading his trailer. Sometimes a price of free just isn't such a good price, is it?

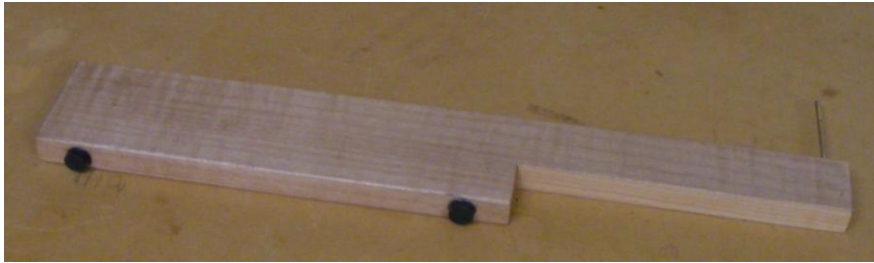

Chuck Robertson found a bargain at a yard sale, a well used RYOBI sliding table saw with a router. It cleaned up nicely and works well.

Derek Johnson basically has been doing chores around the house.

Gary Haubold's trip to visit his 97 year old mother went well. She still lives on her own. The onerous things were miles and miles of construction which contributed greatly to the high gas prices and the shortage of reasonably priced motel rooms.

Our library is now available and we're back in business there.

SHOW AND TELL

Chuck Robertson built a gage to enable him to check table run out on his table saw. Use the magnets to attach the tool to the saw blade after the blade is trued to the table.

What would you like to learn about? Do you know of a speaker we could bring in? Pick up a magazine or surf the net for a topic, and then TELL the board of directors. In the little time I've cruised the net I've found some very interesting things. Let us know what you're interested in and we'll do whatever we can to make a program of it.

We (the Board of Directors) really are very concerned about our club and how to improve it. When I first joined the club it wasn't unusual to have an attendance of twenty-five and some pretty great meetings. We are working toward that end.

Annual dues are \$20.00. As a club we cannot survive if dues are not paid. That is a bargain compared to other organizations to which I belong. If you enjoy reading this newsletter, Great, because I sure enjoy doing it. Your dues pay for the postage and for guest speakers, and we've had some really great ones. I cannot really figure ink and paper costs because my printer is used for everything at home. That's a small contribution for the satisfaction I get from doing the newsletter. So you can see how important the dues are.

CLUB LIBRARY – The club has a nice library which is ordinarily open to members during regular meeting hours, which has an extensive collection of woodworking books, magazines, carving patterns and videos. We are always on the lookout for additional resources. We have some pretty neat things there.

MEETING AND CONTACT INFORMATION – Unless otherwise notified, regular club meetings are held in the downstairs fellowship hall at Hillcrest Baptist Church on Black Diamond Road which is just south of West Highway 101, about halfway between Albertson's Market and the Fairmount Restaurant. Turn north up the hill at the Pine Street intersection which is just down the hill from the bridge which crosses over Highway 101. Proceed up the Pine Street exit to the four way stop sign and turn left. Cross the bridge. You can now see your destination ahead on the left. The club meeting is held the first Thursday of the month 7:00 pm.

The Board of Directors meets at the church office at 2:00 pm the Tuesday following our monthly meeting.

CLUB MEETING

7:00 pm., Thursday, November 6, 2014

7:00 pm., Thursday Decemberr 4, 2014
