

# Peninsula Woodworkers Club

NEWSLETTER – FEBRUARY 2015  
Editor – Gary Haubold

WE WILL BE HAVING A MEETING at 7:00 pm on Thursday, February 5, 2014. Our meeting place will be at our regular meeting place at Hillcrest Baptist Church on Black Diamond Road, just south of the bridge which crosses Highway 101. Check the complete directions below at the end of this newsletter.

\*\*\*\*\*MEETING AGENDA\*\*\*\*\*

- \*WELCOME AND INTRODUCTIONS
- \*DISCUSS MAKING A SIGN BOARD
- \*SHOW AND TELL

\*\*\*\*\*

We had a good meeting with ten people present.

Gary Johnson won the quarterly membership drawing. Remember, each time you are present at a meeting, if your dues are paid, your name goes in the bowl.

After some brief CLUB BUSINESS we moved to SHOW AND TELL  
Rachael Boyd brought in several items –

- 1). An old dovetail saw which had to be reset and sharpened.
- 2). An old DISTON saw which needed some work on the handle. While she was at it, she decided to do some chip carving on the handle, which she had never done before. It looked good to me.
- 3). An old wooden rabbet plane.
- 4). An old wooden marking gage for butt hinge layout. The neatly stamped patent date is 1886.

Jon Fager was doing some cabinet doors and started with his Sketch – Up drawings, He built a test joint on his fixture.

Gary Johnson talked about Mixol Multi-Purpose Tinting

Paint.

Bruce Thompson showed us a clock he built for his wife and talked about the problems he encountered when trying to get a decorative inset tile.

And finally someone, and that person will have to forgive me for not getting the name, brought in some information on Japanese Joinery.

ROUND TABLE  
Cutting Corners

There are lots of techniques, not all of which work well. The tools which can be used are a European style bow saw, hand held power (routers and saber saws), stationary power tools (shaper table, jigsaw and scroll saw and disc sander).

And finally, Avon Miller is doing well now. He had me help him heft a bench mount drill press from the floor onto a movable bench a week ago. This drill press is one I've never seen before. I've seen the Rigid spindle sander which oscillates vertically from a table, but Avon's drill press oscillates vertically from the head. The feature is activated from inside the belt cover. The table has a circular cut out into which the spindle oscillates. This thing is really unique.

By the way, Avon appreciates the good wishes from the club members.

What would you like to learn about? Do you know of a speaker we could bring in? Pick up a magazine or surf the net for a topic, and then TELL the board of directors. In the little time I've cruised the net I've found some very interesting things. Let us know what you're interested in and we'll do whatever we can to make a program of it.

We (the Board of Directors) really are very concerned about our club and how to improve it. When I first joined the club it wasn't unusual to have an attendance of twenty-five and some pretty great meetings. We are working toward that end.

Annual dues are \$20.00. As a club we cannot survive if dues are not paid. That is a bargain compared to other organizations to which I belong. If you enjoy reading this newsletter, Great, because I sure enjoy doing it. Your dues pay for the postage and for guest speakers, and we've had some really great ones. I cannot really figure ink and paper costs because my printer is used for everything at home. That's a small contribution for the satisfaction I get from doing the newsletter. So you can see how important the dues are.

CLUB LIBRARY – The club has a nice library which is ordinarily open to members during regular meeting hours, which has an extensive collection of woodworking books, magazines, carving patterns and videos. We are always on the lookout for additional resources. We have some pretty neat things there.

MEETING AND CONTACT INFORMATION – Unless otherwise notified, regular club meetings are held in the downstairs fellowship hall at Hillcrest Baptist Church on Black Diamond Road which is just south of West Highway 101, about halfway between Albertson's Market and the Fairmount Restaurant. Turn north up the hill at the Pine Street intersection which is just down the hill from the bridge which crosses over Highway 101. Proceed up the Pine Street exit to the four way stop sign and turn left. Cross the bridge. You can now see your destination ahead on the left. The club meeting is held the first Thursday of the month 7:00 pm.

The Board of Directors meets at the church office at 2:00 pm the Tuesday following our monthly meeting.

CLUB MEETING

7:00 pm., Thursday, February 5, 2015

7:00 pm., Thursday March 5, 2015

BOARD OF DIRECTORS MEETING

TBD
